

Backyard luxury

elegant outdoor living spaces
with *Sunguard Awnings & Patio Furniture*

story Sarah McGoldrick

76

There is nothing more enjoyable after a long day at work than escaping to your own backyard outdoor oasis.

With a glass of wine in hand and the smell of steaks cooking on the barbecue, you can enjoy the peace and tranquility of a warm summer evening under an awning professionally installed by Sunguard Awnings & Patio Furniture of Mississauga.

Sunguard has been leading the way in bringing the new styles of awnings to the market that are not your typical old fashion awnings. These new modern designs are attracting customers who are very aware of the importance of sun protection and shade but want a contemporary look for their outdoor

space.

For over 20 years the team at Sunguard Awnings & Patio Furniture have been creating exceptional outdoor living spaces with their customizable designs and attention to detail.

Using the latest digital rendering technology, a real-time design can be created to allow clients to select the best looks and colours for their outdoor space. Whether clients are looking for awnings, louvered roofs or a motorized pergola, using this technology helps Sunguard always recommend the right shade solution.

“We specialize in creating shade. Our solutions include retractable & fixed awnings, motorized screens plus louvered roofs enabling us to provide

shade in almost any outdoor area.” says co-owner Cory Whittaker.

Sunguard Awnings & Patio Furniture recently expanded their showroom to allow clients to view and experience a full range of shade and patio furniture products. Awnings and Louvered Roofs are displayed in full size so clients can get a true sense of size and space.

Working with notable landscape architects and designers, Sunguard creates awnings that add sophistication and timelessness. Retractable awnings are available from Italian manufacturer BAT and Stobag of Switzerland. This means all components are European crafted to the highest level of quality, then assembled in Canada. The louvered

roofs are made by American-based Equinox, a leader in the industry.

At their Mississauga showroom, an exceptional collection of patio furniture and accessories are also on display, allowing customers to complement any design scheme. Sunguard features collections from Cabana Coast, Telescope, Enclover and La Fete Design.

These pieces allow you to transform your patio into a beautiful outdoor room. Choose from sectionals, individual seating or relax in a luxurious daybed.

Create a dining experience for any meal or event with a curated space designed to fit your family needs

The level of commitment to customer service is part of Sunguard's philosophy established by Whittaker's father and his business partner Michel Bernard when they set up the business over 20-years ago. Robert & Mira Filipek joined the team as partners bringing over 30-years of combined outdoor furniture and design experience. With this expertise, Sunguard is able to create backyard solutions that are unmatched.

The value of creating amazing outdoors spaces for families has been reflected through the many generations that have come to trust the work of Sunguard, with customers coming back time and time again to improve their outdoor space.

"What makes us feel good about our business is seeing customers come back year after year to get more ideas on how they can continue to enhance their backyard entertaining spaces" says co-owner Filipek. He attributes this to the team's creativity and the quality of the products, which are warrantied up to 10-years.

Each outdoor element can be coordinated to create a complete look using fade resistant Sunbrella fabrics on all awnings, patio furniture, and cushions.

To create a focal point for your space, add an outdoor fire pit that will bring both

warmth and beauty to your patio. A stunning selection of fire tables will allow you to carry your special occasion well into the evening. To keep-up with leading-edge technology Sunguard has brought in the latest in home automation. Many of their products can now be controlled from smart devices like phones, iPads and tools like Alexa and Google Home.

Sunguard Awnings & Patio Furniture has sold more than 5,000 shade solutions in the

Mississauga and GTA area. While visiting the showroom, customers are free to glance at a list of install locations, and will more than likely find a neighbour that owns a Sunguard **77**

Trusted service, innovation, and commitment to client satisfaction is truly what sets Sunguard Awnings & Patio Furniture apart from the competition. Call them to begin transforming your patio into a personal luxury getaway.
